-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase “the enclosing means”, as set forth in claims 7 and 8, lacks antecedent basis.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,3,4, and 6 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Varner. Varner shows a housing means 56, plunger means (lower portion of 31 adjacent 44).

Claims 1,3-5,9,11-13,15, and 18 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Useldinger. Useldinger shows a housing means 16,18, plunger means 25, and alignable apertures at 41.

Claims 1-4, and 6-8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hunter. Hunter shows a housing means 30, plunger means 48, and means for substantially enclosing (42,54,60).

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Useldinger in view of Shand. Useldinger shows the claimed controller with the exception of the means for attaching a load/strap. Shand at 17 shows means for attaching a load/strap. It would have been obvious to one of ordinary skill in the art at the time the invention was made to provide Useldinger with a means as claimed to facilitate the attachment of a load/strap to his controller.

Claims 10,14, and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 19 and 20 are allowed.
